

Hosted Voice couples the benefits of a key system with the advantages and cost savings of VoIP.

MegaPath Hosted Voice key solution gives you the benefits of your key system—such as shared-line and paging—and the option of adding Hosted Voice (VoIP) seats for employees who need the added functionality of advanced calling features—such as Find Me / Follow Me, Visual Voicemail, and mobile integration. Plus, Hosted Voice saves you up to 50% over traditional telephone services.

- **Key System Features.** Enjoy key system features—such as shared-line appearance and direct intercom paging—along with the cost and time-saving advantages of Hosted Voice—including Find Me / Follow Me, mobile integration, and Visual Voicemail.
- **Affordable.** Save up to 50% over traditional telephone service, and avoid paying maintenance fees and charges to move, add, or change employees. You'll also save month-to-month with a choice of affordable long-distance options—including carry-forward minutes—so you never worry about wasting money. With purchase of 5 Hosted Voice seats, you will also receive free IP phones*.
- **No Key System to Purchase or Maintain.** No upfront costs or maintenance fees of a traditional key system.
- **Optional Features.** Select from a wide range of optional features—including toll-free numbers, Hunt Groups, and Auto Attendants—that will make our Hosted Voice service work even harder for you.
- **Shared-line appearance.** Shared-line appearance enables a directory number to appear on multiple phones at the same time; this is most commonly found among receptionists and administrative assistants.

Benefits

Key System features include Shared Line and Paging

Save up to 50% over traditional phone services

New Hosted Voice advanced features

Voice Quality of Service (QoS)

No upfront costs or equipment to purchase

MegaPath Hosted Voice and a Key System Solution. A New Way of Working. More Functionality for Less.

- **Save money.** Lower your phone bills by at least 50% with MegaPath's unlimited local and long-distance calling.
- **Reduce capital expenditures.** There is no system to purchase or lease; receive free IP phones when you buy 5 lines of Hosted Voice*.
- **Full Key System functionality.** The Hosted Voice Key Solution provides many of the features businesses demand, including shared-line appearance and direct intercom paging. In addition, you can purchase individual Hosted Voice employee seats to provide advanced calling features—such as mobile integration, Visual Voicemail, Find Me / Follow Me—to select employees. And you get the benefit of unlimited calling.
- **HD Voice.** MegaPath Hosted Voice provides sound quality as clear as a landline call, but better. With MegaPath, you get Quality of Service, which prioritizes voice calls on your network.
